Product Announcement

SCO*office* Server™ Release 4.1
E-mail and Collaboration for SCO® UNIX® Servers

July 2004: The SCO Group announces availability of the SCO*office* Server 4.1, e-mail and collaboration for SCO UNIX servers.   This new release of SCO*office* Server delivers the reliable, full-featured e-mail and collaboration solution to the popular SCO OpenServer™ platform. SCO*office* Server both prevents e-mail viruses from reaching users and filters out junk e-mail.

0 Description

SCO*office* Server 4.1 delivers a reliable, full-featured Internet e-mail and collaboration solution for SCO UNIX servers. Designed with comprehensive security features, SCO*office* prevents e-mail viruses from reaching users, filters out junk e-mail, and secures e-mail access. Providing more than just e-mail services, SCO*office* also delivers a real-time collaboration solution for scheduling group meetings, sharing contact lists and address books, and managing group to-do lists and tasks. For convenience, SCO*office* integrates with Microsoft Outlook and industry-standard Web browsers. Empowering non-technical users such as office managers, secretaries, and assistants, SCO*office* features a friendly interface for setting user and environment preferences.

1 Product Features

New Features for Release 4.1

New Features	Benefits
New Platform Support	Supports SCO OpenServer 5.0.7
Microsoft Outlook Integration	❑ Downloads and configures SCO*office* Connector™ for Microsoft Outlook® with a single click ❑ Improves mobile user experience with offline message synchronization
Web-based Collaboration Suite	❑ Collaborates between Microsoft Outlook and Web browsers such as Internet Explorer®, Netscape® and Mozilla. ❑ Sends and receives email messages ❑ Shares folders, calendars, task lists, address books ❑ Schedules meetings and allocates resources ❑ Displays familiar Outlook user interface
Multi-machine Architecture	Enables spreading of users across multiple systems, creating performance clusters for supporting tens of thousands of user
Improved Interface	Empowers non-technical and technical staff to administer the server, making administration tasks easier to find and perform
Resource Calendaring	Schedules resources such as projectors, conference rooms, etc.
Internet Blocking	Lets administrators determine which users may send/receive Internet e-mail
Microsoft Exchange Migration Tools	Lets administrators easily move users and e-mail from Microsoft Exchange to SCO*office* without touching a UNIX command line

SCOoffice Server Features

Features	Description
Compatibility	❑ Provides advanced, scalable, full-featured Internet e-mail server management ❑ Supports local, remote, and Internet-standard e-mail protocols including SMTP, POP3, and IMAP4 ❑ Supports popular e-mail clients such as Microsoft Outlook, Microsoft Outlook Express®, and Qualcomm Eudora® ❑ Supports web-based e-mail client for complete web-based mail access ❑ Includes free/busy calendaring services for Microsoft Outlook and Web browsers ❑ Supports well known and trusted commercial solutions for backup, fax messaging, high availability, telephony, and virus protection
Reliability	❑ Provides a modular mail transfer agent, which processes each task separately, minimizing the impact of errors ❑ Uses high performance SMTP-based message routing ❑ Uses native Internet mail content stores and retrieves MIME content without any problematic conversions ❑ Includes single-instance message store with fast recovery ❑ Supports customizable monitoring of core services with selectable actions for when a problem is detected
Easy-to-use server manager	❑ Includes consistent, easy-to-use administration interface for managing users, aliases, domains, and system ❑ Presents complex tasks with simple, intuitive dialogs to simplify administration for non-technical users ❑ Provides administration and user interface in English, French, German, Italian, and Spanish ❑ Blocks specified users from sending or receiving e-mail over the Internet. If blocked, users will continue to send and receive internal e-mail. ❑ Attaches messages to every outbound e-mail message, if activated. For example, an attachment may include a disclaimer, a key business message, or any other message.
Easy-to-use user preferences manager	❑ Provides easy-to-control address books, vacation messages, mailing lists, junk e-mail filtering (SPAM), user passwords, and much more ❑ Configures Microsoft Outlook and Outlook Express for accessing SCO*office* Server with a single click ❑ Delivers consistent interface across the application ❑ Presents complex tasks with simple, intuitive dialogs for non-technical users
Microsoft Outlook Integration	❑ Enables e-mail, calendaring, group scheduling, resource scheduling, and other collaborative activities ❑ Allows sharing of all Outlook folder types, contacts, calendars, journals, notes, and tasks ❑ Enables private discussion groups ❑ Provides enhanced Internet LDAP address book with full Microsoft Outlook compatibility
Security and Privacy	❑ Supports X.509 certificates ❑ Supports SSL 3.0, Simple Authentication and Security Layer (SASL), and Transport Layer Security (TLS) ❑ Relay controls secure SCO*office* Server from spammers and hackers ❑ Delivers optional system accounts for increased security ❑ Includes Clam antivirus and also provides support for commercial scanners from McAfee and Sophos ❑ Includes SpamAssassin junk e-mail prevention software

1 Licensing

SCO requires an e-mail user license for each user of SCO*office* Server. The base license includes 5 e-mail user licenses and is required before user bump packs can be applied. A low-cost media kit is available separately. The media kit includes a 60-day evaluation license. Partners may obtain a not-for-resale (NFR) license to demo SCO*office* Server for extended periods.

Media is also available for download from http://www.sco.com/download/ at no charge. For convenience, the SCO OpenServer 5.0.7 media kit now includes the SCO*office* Server media.

Each e-mail user can have an unlimited number of aliases. There is no restriction for concurrent use. For additional e-mail user licenses, SCO provides "bump packs" in 10, 25, 50, 75, 100, 250, 500, and 1000 e-mail account increments.

When the number of e-mail accounts has been reached, SCO*office* will prevent new accounts until the administrator purchases additional licenses**.**

Licenses for the new version of the SCO*office* Mail Connector for Microsoft Outlook and the new SCO*office* WebClient are included in the base license and user bump pack pricing.

1 Availability

The SCO Group is now accepting orders for the SCO*office* Server 4.1. First customer shipments are anticipated to begin worldwide on July 28th, 2004.

1000 Users	LA049-1000-4.1	LA049-1000W-4.1	19000.00	16530

1 Services

Technical Support

SCO's award-winning Global Services offer a complete portfolio of worldwide support services on SCO's full range of software products, giving customers powerful choices to choose from based on their business requirements for SCO products.   Local language support is one of the many key attributes to SCO Global Services.

Business-critical services (unlimited technical support incidents covering unlimited licenses/installations) – 24x7 Emergency Service and retired operating system product support available as add-ons to base contract.

SCO Enterprise, the highest level of support, includes a dedicated technical account manager assigned exclusively to your account. A dedicated account manager provides one point of contact for all of your technical issues with immediate response time, around the clock coverage, as well as 24x7 engineering escalation assistance on all Severity 1 issues. SCO Enterprise is a customized contract for each customer based on your business demands.

SCO TEAM Support is designed for a wide range of corporate customers requiring high-level, proactive technical support for business critical operations. With TEAM, you have immediate and direct access to your assigned senior technical account manager, responsible for assuring successful solution implementation and support for your SCO systems. In addition, an onsite visit is included with the service, which ensures your Technical Account Manager is familiar with your environment. 24x7 after-hours support is available as an add-on to your base TEAM support agreement.

SCO SoftTech Plus includes support for unlimited licenses and installations covering all SCO products, with a guaranteed one-hour response time. This service is targeted to SCO partners and customers that need coverage for all SCO products. With SoftTech Plus, you also have an assigned administrative account manager as your primary contact for administrative issues.

SCO SoftTech includes support for unlimited licenses and installations with a guaranteed up to two-hour response time. SoftTech is available per operating system/product, allowing you the flexibility to add on additional products and services when you need them. Your administrative account manager provides a single point of contact for your administrative issues.

In addition, SCO offers traditional incident based support services with SCO's Premier incident packs
